

Uma Group buys 11th Slitter Rewinder from SP Ultraflex

What better measure of success in the capital equipment industry than repeat orders? And when the count of machines enters the second digit, it sure is time to celebrate.

With the recent dispatch of its PRIMASLIT[®] FL slitter rewinder to Jodhpur based Uma Group, directly from the PLASTINDIA fair grounds at Gandhinagar, the count of slitter rewinders supplied by Mumbai based SP Ultraflex Systems (P) Ltd to the Uma Group reached 11.

When asked about the association with SP Ultraflex, Shrikul Lodha, Executive Director of the Uma group said, “Our association with SP Ultraflex started more than 2 decades ago, with the supply of a machine to Uma Polymers Jodhpur. As we grew and established industry dominance, our assessment criteria for capital equipment became increasingly stringent and we were happy to note that SP Ultraflex met our expectations at every stage of our evolution. Today, SP machines are one of the best in the industry, at par with European machines in terms of speed, quality and reliability. The professional and transparent

Uma Group CMD Shripal Lodha and Executive Director Shrikul Lodha with team SP Ultraflex at Plastindia 2018, Gandhinagar

One of the largest and most renowned manufacturers of quality flexible packaging in India, the Uma group is known for its thorough due diligence while selecting equipment, be it co-extrusion, printing, lamination or the all-important process of slitting and rewinding, after which flexible laminates are shipped off to the customer, in the form of slit reels.

approach of the management is ably supported by an excellent core team with good analytical and problem solving skills whose out of the box thinking has many a time supported our endeavors to innovate and provide better value to our customers. In a nut shell, the association with SP Ultraflex has proved to be an asset to the Uma Group and we see ourselves working together for many years to come.
